

ROBOTS OF DOOM INCORPORATED

(ROD Inc.)

Board Report

Ideation Round 2

Is there a better business than Club and Coach Desk to test first?

Reference	ROD-BR-2026-002
Date	9 October 2026
Prepared for	Caleb, Founder and Chairman
Prepared by	RIVET-CEO, Chief Executive Officer
Contributors	SPARK-CIO, LEDGER-CFO, SERVO-CTO, COGSWORTH-COO, PROBE-CRO, BEACON-CMO
Status	For Chairman ratification (decision D-003 is pending)
Classification	Confidential

1. Executive summary

The answer: nothing clearly beats Club and Coach Desk, so do not pick a business yet. Two ideas could earn more (website packages for small businesses, and corporate sports days), but they take about twice the hours and nobody has shown that a customer will pay. Spend the next two weeks asking about 25 people. Then choose one main business.

What we recommend you do now

Step	When	What	Who
1	Today	Write down the real names of the coaches and founder friends you could ask this week. Check your employment contract allows a side business.	You
2	By 21 Oct	Run four quick tests of 5 conversations each (see "The next two weeks" below). The robots draft the scripts. Only you contact people.	You, with robot drafts
3	23 Oct	The robots re-rank using what you learned. You choose one main business.	Board, then you

The shortlist in plain English

"Profit" means monthly profit at month 12 after costs, before your own time. All numbers are estimates. "Good case" means things go roughly to plan. "Bad case" means few customers sign up.

#	Idea	What it is	Profit: good / bad case	Your hours a week	Our view
1	Websites for small businesses	A website plus a monthly care plan (S\$1,200 once, S\$59 a month) for studios, tuition centres and coaches, sold through your founder friends.	S\$4.3k / S\$0.8k	14 to 16	Highest potential, but most of that profit is one-off build fees, not monthly plans.
2	Corporate sports days and run teams	You organise a sports day or run team for a company's staff. Buyer is the HR head, introduced by friends, parents and coaches.	S\$3.7k / S\$0.7k	16 to 18	Pays well but unevenly (yearly average S\$1.9k). Plenty of team-building competitors already exist.
3	Athletics club package	A free results page for meets, then kits and awards, then Club and Coach Desk. One club treasurer can buy all of it.	Not modelled together	about 15	Looks promising because one customer buys several things. The robots never worked out the combined numbers.
4	Adult run blocks	Coached running programmes through run crews.	Not modelled	8 to 12	Weak. Nobody knows who would pay.
5	Youth holiday camps	Camps run by coaches, with you as the organiser.	about S\$1k per camp	12 to 15	Weak. The government-subsidised camps cost S\$36 to S\$54, far below our price.

Reserves: a paid NRIC rule-change service (the deadline is 31 Dec), and a sports gear concierge.

Your favourite, Club and Coach Desk

Profit of S\$2.5k in the good case and S\$0.3k in the bad case, at about 7 hours a week. It earns less than ideas 1 and 2 but needs half the hours. Its real limit is how many introductions you get, not your hours: going from 10 to 20 hours a week only lifts it from S\$1.8k to S\$2.5k.

The comparison is not fair yet, because nobody modelled Club and Coach Desk together with kits and awards (idea 3). That is the first piece of homework for the robots.

What we dropped, and why

- **Camps you run yourself:** 30 to 35 hours a week.
- **Gear distribution:** S\$25k to S\$35k of stock up front.
- **Your own events series ("Track Night"):** loses money in year one.
- **Heat-stress kits and the condo tracker:** too close to your day-job industry.
- **Live photo-finish timing and a Garmin dashboard:** about 120 build hours, and children's data.

- **The CNY hamper test due 22 Oct:** we recommend dropping it. The deadline lands before the other tests report, and the busy season clashes with ideas 1 and 2. You can override this. The fallback is Mid-Autumn 2027.

The next two weeks (about 14 of your 40 hours)

Test	What you do	Pass mark
Websites	Show a demo to 5 founder friends. Offer 3 sites at S\$1,200.	2 of 5 pay a deposit or name an introduction within 7 days
Corporate sports days	Send a S\$4k quote to 5 other friends. Ask for a 30% deposit.	2 of 5 pay a deposit or arrange an HR meeting
Athletics club package	Offer 5 coaches a free results page. Ask about kit orders. Ask 2 associations to mail Club and Coach Desk.	2 of 5 name a meet or ask for a kit quote
Camps and adult runs	Ask 5 coaches about a staffing rate. Ask 10 parents about S\$280 a child-week.	2 coaches and 3 parents say yes

Decisions we need from you

- 1 **What monthly profit counts as steady income?** We suggest starting from **S\$4k a month at month 12** in the good case, and also setting a bad-year floor. At S\$2k almost every idea qualifies, and S\$6k is out of reach here. S\$4k is where the ranking changes. The choice is yours.
- 2 **May a 14 to 18 hour business (idea 1 or 2) replace Club and Coach Desk as your lead?** Or should Club and Coach Desk and its package stay the base?
- 3 **Who can you actually ask this week?** The robots assumed about 15 coaches and 10 founder friends. If that is wrong, every idea gets harder.

How to read the rest of this report

- **Veto:** a robot's power to block an idea on its own topic (money, hours, legality, evidence, customers). Each veto states what would clear it.
- **Round 1:** every robot listed ideas, with vetoes off. **Round 2:** SPARK grouped the ideas. **Round 3:** the five core robots attacked the top 10 groups, with vetoes on. **Round 4:** RIVET wrote the synthesis (Part 2).
- Parts 2 to 7 are the full, unedited record, including every disagreement. You do not need to read them to make the decisions above.

What changed since the first report

You raised your time from 10 to 20 hours a week. We added SPARK-CIO and switched vetoes off while ideas were being collected. About 75 ideas came in instead of about 35. Even so, much of the shortlist overlaps with last time (websites for coaches and clubs, kits and awards), which suggests the real bottleneck is customer evidence, not ideas. The robots cannot get that from searching the web. Only your conversations can.

2. Synthesis

Written by RIVET-CEO after reading every round file. Reproduced in full.

RIVET-CEO: full synthesis

2026-10-09. \$\$ are estimates (LEDGER, 20 hrs/wk). No robot found willingness-to-pay data, so the call is "run the cheapest tests", not "go".

1. Verdict

Nothing clearly beats Club and Coach Desk (CCD): a tie on evidence, a split on paper.

- On paper two beat it on ceiling and downside: SME sites S\$4.3k/0.8k and corporate sports days S\$3.7k/0.7k, against CCD S\$2.5k/0.3k at m12.
- Conflict:** they need 14-18 hrs/wk against CCD's 7. But LEDGER found CCD's limit is partner intros, not hours (20 hrs gives S\$2.5k, 10 hrs S\$1.8k). The challengers face the same limit from a smaller pool: 10 friends give 3-6 sites a round (BEACON); corporate needs about 76 warm HR talks a year (LEDGER).
- The comparison is unfair as run: CCD plus kits and awards fits in about 15 hrs (COGS) and **nobody modelled it**. That is #3 and a LEDGER action.

2. Ranked shortlist

#	Idea, buyer, channel	m12 base/down; first month at S\$2k / 4k / 6k	Hrs/wk	Software; no-build test
1	SME sites + care plan (S\$1.2k + S\$59/mo) for studios, tuition, coaches; NRIC fix as add-on (free, per PROBE K3); absorbs Centre Desk. Owner via friends	S\$4.3k / 0.8k; m4 / m10 / no	14-16	Upkeep 3-5 h at 10 sites. Pre-sell 3 on Carrd + Stripe. S\$4.3k assumes 18 care clients; SERVO caps at 8; mostly build revenue
2	Corporate sports day / run teams. HR head (50+ staff) via friends, parents, coaches as staff	S\$3.7k (yr avg 1.9k) / 0.7k; m9 / ~m11 / 6k only at 2.8 events, hours cap	16-18	Quote PDF + Stripe; 5 HR heads, 30% deposit; floor S\$3.8k
3	Club stack: free Sheets results page (door), deposit-first kits and awards, then CCD. Treasurer via coaches	Kits alone S\$2.3k / 0.15k, m8; hub S\$0.7k; combined with CCD unmodelled (A-018)	15	Sheets only, 8 h; 3 printer quotes
4	Adult run blocks via run crews, shares #2's coach pool. Weak slot	Run-crew form unmodelled ; clinic form S\$3.3k / ~0	8-12	Paper sign-up
5	Youth camps, agent form , S\$280+ per child-week. Weak slot	About S\$1k per camp, never S\$2k	12-15	Form + PayNow, pre-sell 8 spots
R1	Rule-change sprint (NRIC fix, deadline 31 Dec), paid; #1 carries it free	S\$1.6-2.0k / 0.3k; m4 / no	14 then 4	Ask 3 accountants
R2	Gear concierge , prepaid, zero stock	S\$1.2k / 0.3k	10-14	Prepaid chat post

#	Evidence (PROBE); contradicted claims	Backed	Vetoed / objecting
1	Price band sourced, commodity, no wedge	5 of 5	PROBE: no wedge
2	Price supported (S\$30-80/pax). "Nothing like it" contradicted	5 of 5	LEDGER K6 below S\$3.8k
3	"No hub incumbent" partly contradicted (SA e-entry, HY-TEK, AthleticLIVE US\$29/meet)	5 of 5 as door	PROBE: kits worse alone
4	Ageing sourced; payer unknown	BEACON, LEDGER, PROBE	BEACON K5 clinic; COGS: not better per hour
5	S\$150-400 contradicted (ActiveSG S\$36-54)	BEACON, SERVO, SPARK	PROBE Fatal at S\$150+; COGS K2 as written
R1	Deadline sourced; retainer unproven	COGS, LEDGER	PROBE K3 standalone
R2	Price gap is a vendor blog	LEDGER, SPARK	COGS: below baseline

Stacking: a founder friend buys site + merch, then opens an HR door (#2); a treasurer, results page + kits + CCD (#3); an HR head, run team + kit + staff blocks (#4). But #1 + #2 is 30+ hrs and CCD + #2 is 23-25, so **pick one main line after the tests**.

3. Vote table (top 5 per robot; SPARK = R2 interest)

Final	BEACON	COGS	LEDGER	PROBE	SERVO	SPARK
1 Sites	2	2	1	1	2	2
2 Corporate	1	1	2	2	1	1
3 Club stack	3	3	3	4-5	4-5	4
4 Adult	5	none	5	3	none	none
5 Camps	4	reserve	reserve	none	3	3
R1 Rule-change	add-on	4	4	K3 veto	none	none
R2 Gear	none	none	none	none	none	5

Dissent: four robots rank corporate first; I put sites first on cash speed (m4 vs m9).

4. Vetoes in force, and kills

Veto	Target	Clears if
LEDGER K6	Camps at S\$250 (56%)	S\$280 per child-week or 10 kids/coach
LEDGER K6	Corporate below S\$3.8k (49%)	Price floor S\$3.8k
LEDGER K6	Adult at S\$25 (49%)	S\$35 per session
COGS K2	Camps as written	Agent form, max 2 a year
BEACON K5	Clinic channel	A named clinic manager agrees to refer
PROBE K3	Rule-change standalone; paid add-on	3 of 5 SMEs would pay a retainer (estimate), or the Chairman overrides
PROBE block	S\$150-400 camps, "no incumbent", S\$3-8k events	Label stays "estimate" until tested

Kill	Decisive reason
Camps run personally	COGS K2: 30-35 hrs/wk
Gear distribution	LEDGER K1: S\$25-35k stock (clears at MOQ of S\$14k or less, or consignment); BEACON K5
Track Night, own events	LEDGER K7: year 1 -S\$1.9k / -S\$11k
Heat-stress kits, condo tracker	Day-job grounds (tracker: Chairman may overrule); heat also PROBE K3
Live photo-finish timing, Garmin dashboard	SERVO: 120 h, minors' data, API approval
Site-supply subscriptions	BEACON K5; first-aid needs about 200 sites

5. Versus CCD (B better, E equal, W worse; CCD S\$2.5k/0.3k, 7 hrs, S\$0.5k)

#	Ceiling	Hours	Evidence	Cash
1	B	W	E	E
2	B	W	E	W
3	E (unmodelled)	W	W	W
4	E (unmodelled)	W	E	W
5	W	W	W	W

Cash (S\$1-4k) decides nothing.

6. Steady income

Idea	Route to
#1	S\$2k by m4, S\$4k by m10
#2	S\$2k by m9, S\$4k at peaks, S\$6k only at the hours cap
#3 and CCD	S\$2k by m8
#4, #5	#4 unmodelled; #5 under S\$2k

Every downside is S\$0-0.8k. **Decision aid: start from S\$4k a month at month 12 (base).** S\$2k does not separate the list, since nearly everything reaches it, and S\$6k is out of reach here. S\$4k is where the ranking changes: only #1 and #2 get there, at 14-18 hrs, one at a time. If they pick S\$2k, choose on hours (#3). Also set a bad-year floor (A-014).

7. Next 2 weeks (Chairman about 14 of 40 hrs; robots draft, only the Chairman contacts people)

By	Test	Owner	Pass
Day 1	Name the coaches and friends (BEACON assumed 15 and 10); contract (A-015); weekday daytime is the day job?	Chairman	Answers in writing
21 Oct	Sites: 5 friends, Carrd demo, 3 sites at S\$1.2k	SERVO drafts	2 of 5 deposit or name an intro in 7 days
21 Oct	Corporate: other 5 friends, S\$4k quote, 30% deposit	BEACON picks	2 of 5 deposit or name an HR meeting
21 Oct	Club stack: 5 coaches, free results page, last kit order; ask 2 associations to mail CCD	Chairman	2 of 5 name a meet or kit quote
21 Oct	Camps/adult: 5 coaches on staffing rate; 10 parents on S\$280	Chairman	2 coaches, 3 parents yes
22 Oct	Count meets a year; model CCD + kits + hub at 15 hrs; printer quotes; PEL, insurance	PROBE, LEDGER, COGS	Re-rank 23 Oct

Hamper (22 Oct): drop it. Its 7 hrs are affordable, so this is a focus call. The gate (3 buyers, 60 boxes, packer and insurance quotes) lands before any new test reports, the Nov-Jan peak (9.5-15.5 hrs/wk) collides with #1 and #2 launch, and it asks the same HR heads. Fallback: Mid-Autumn 2027. The Chairman may override.

8. For the Chairman

Ratify D-003 as a test list (supersedes D-002; includes the hamper drop), **veto**, or **send back** weak slots 4-5. Decisions only they can make:

- 1 Income target and floor (section 6).
- 2 May one 14-18 hr line displace CCD as the lead, or does CCD's stack stay the base?
- 3 Confirm network and contract before any invoice.

Assumptions: A-017 to A-030 added.

3. Meeting agenda

Agenda as issued

Date: 2026-10-09. Called by the Chairman (Caleb).

Why this meeting

The first shortlist (meeting of 2026-10-08) felt "so-so". Its ideas were narrow because robots ideated through their job lens, had no data on the Chairman's strengths, applied vetoes while ideas were forming, and worked under a 10 hrs/week cap. Time is now **20 hrs/week**. The Chairman's favourite from round 1 was **Club and Coach Desk**, by a small margin. It is the **baseline**: new ideas should beat it.

Question

Produce a wide, original pool of business ideas, cluster it, then attack and rank the best ones. Output: a ranked shortlist of **5 ideas plus 2 reserves** that are better than Club and Coach Desk, or a clear statement that none is.

Constraints (from 01-constraints.md, binding)

- Singapore. Capital S\$5k to S\$20k. **About 20 hrs/week**. Partnership-led selling preferred.
- **Stay away from the day-job industry** (modular and prefabricated buildings, construction) and employer resources.
- Founder strengths: athletics network, entrepreneurial friends, vibecoding, website knowledge, business knowledge.
- Demand must be structural, not a fad. Physical products are fine.
- **Income ladder**: for each idea, say whether it can plausibly reach S\$2k, S\$4k or S\$6k a month net at 20 hrs/week, and about how long that takes (label estimates).

Phases

Phase	Round	Who	Writes	Vetoes
Diverge	1	SPARK, PROBE, BEACON, SERVO, LEDGER, COGSWORTH (parallel)	r1-<robot>.md	Suspended. Do not kill or reject any idea.
Diverge	2	SPARK-CIO	r2-spark-clusters.md	None
Converge	3	PROBE, BEACON, SERVO, LEDGER, COGSWORTH (parallel)	r3-<robot>.md	Back on
Converge	4	RIVET-CEO	synthesis.md	n/a

Each robot writes only its own files. Runs in a round are parallel, so no shared-file edits.

Round 1 task

Each robot lists **12 ideas** in one compact table, drawing on its **assigned source** (below), not just its job lens. Include **2 stretch ideas** that push on a constraint (flag them). Do **not** filter, kill or defend ideas in this round. Web search is allowed and encouraged.

Table columns (one row per idea): # | Idea | Buyer (a role) | How they pay (price, one-off or recurring) | Channel partner | Startup S\$ (est.) | Hrs/wk at steady state (est.) | Reaches S\$2k / S\$4k / S\$6k per month? (Y/N/maybe, est.) | Founder fit (which strength) | Source of the idea (link if from research)

After the table, write one paragraph on **which 3 ideas you would most want tested and why**.

Then read `company/meetings/2026-10-08-clean-slate/synthesis.md` and add a short list tagging each of your ideas **NEW** or **OVERLAP** with a round 1 idea.

Do **not** read the round 1 files before writing your table, so you are not anchored.

Assigned sources

Robot	Source
SPARK-CIO	Pain mining (real complaints), import and arbitrage (works abroad, missing here), cross-industry analogies. 15 ideas instead of 12.
PROBE-CRO	Structural and regulatory change that forces spend (new rules, demographics, government schemes), plus Singapore sports and athletics ecosystem data.
BEACON-CMO	The Chairman's athletics network and entrepreneurial friends: what do these people already pay for, struggle with or want? Partner-first.
SERVO-CTO	Vibecoding and website knowledge at 20 hrs/week: digital products, productized sites, niche tools, content or data products, sports tech.
LEDGER-CFO	Business models with high margin, repeat purchase or deposit-first cash, including physical products and import arbitrage that 20 hrs/week now allows.
COGSWORTH-COO	Low-hassle physical and B2B supply or service businesses that fit 20 hrs/week with easy licences, including sports and athletics goods and services.

Round 2 task (SPARK-CIO only)

Read all six Round 1 files. Cluster the ideas into named groups, merge true duplicates, flag which ideas beat Club and Coach Desk on the income ladder, and rank the **top 10 clusters by interest**, not by safety. Do not kill anything.

Round 3 task (core robots, vetoes on)

Attack the top 10 clusters from your own lens. For each: assumption, severity (Fatal/Major/Minor), cheapest test. State which ideas you would veto and why, and give your own top 5. Compare each against Club and Coach Desk.

Round 4 task (RIVET-CEO)

Synthesis: ranked shortlist of 5 plus 2 reserves, vote table, kills, vetoes in force, income ladder per idea, next 2 weeks of cheapest tests with owners (the Chairman's athletics network and entrepreneurial friends are the first talk-test pool), and what the Chairman must decide.

Rules

Per company/PROTOCOL.md, including the ideation section. About 600 words max per file, tables over prose. Numbers need a source URL and date, or the label "estimate". Never contact anyone or spend money.

4. Round 1: ideation (vetoes off)

Each robot listed ideas from an assigned source. No robot was allowed to kill an idea. Unedited.

SPARK-CIO

2026-10-09. Vetoes suspended; nothing here is killed. All S\$, hours, ladder figures are **estimates** unless a link is given. Web search surfaced few direct complaint threads (Reddit/HWZ not indexed), so "pain" rows cite the nearest official or press source; rows with no link are analogies with no sourced complaint yet (PROBE-CRO please check).

#	Idea	Buyer	How they pay	Channel partner	Startup S\$	Hrs/wk	S\$2k / 4k / 6k	Founder fit	Source
1	Meet-day results and timing service: phone photo-finish plus live results page for school/club track meets (cross-country results are validated by hand today)	School CCA teacher, club secretary	S\$300 to 600 per meet, S\$100/mo season page	Singapore Athletics, clubs, schools	1.5k	8	Y / maybe / N	Athletics, vibecoding	NSG race guide (results processing)
2	Coach pool for sports schools do not offer: parents told to hire own coach, so bundle vetted coaches into small paid groups	Parent	S\$80 to 150 per child per month	Parent chats, athletics coaches	3k	12	Y / maybe / N	Athletics network	MOE debate on CCA gaps
3	InvoiceNow-ready bookkeeping setup for tiny GST-registered businesses (set up invoicing, then monthly check)	Sole prop or micro-SME owner	S\$500 setup plus S\$80 to 150/mo	Founder friends, accountants	1k	10	Y / maybe / N	Business, entrepreneurs	InvoiceNow rollout 2026-2031
4	Condo move-in/renovation booking and deposit tracker for managing agents (lift padding, deposits, contractor passes)	Condo managing agent / MCST	S\$150 to 300/mo per condo	Managing agents	1k	8	Y / Y / maybe	Vibecoding, sales	99.co renovation friction
5	Caregiver subsidy navigator: productized guide plus concierge for grants and paperwork	Adult child caring for a parent	S\$150 to 400 one-off	Clinics, eldercare centres	1k	10	Y / maybe / N	Business, website	NHG on caregiver strain
6	Multi-school pickup "walking bus" for kids at different schools or after student-care hours	Working parent	S\$8 to 15 per trip, monthly pass	Student care centres	3k	20	maybe / N / N	Network	MOE student-care waitlists
7	Japan finger/joint taping and recovery goods, wholesale	Climbing gym, physio, sports shop	S\$8 to 20/unit wholesale, reorder	Gyms, physios	6k	6	Y / maybe / N	Comfortable with physical goods	Japan-only listing example
8	Japan-market track spikes and gear, preorder only (no stock before payment)	Club athlete, parent	S\$150 to 250/pair, 25 to 35% margin	Clubs, coaches	3k	6	maybe / N / N	Athletics	Estimate, no sourced complaint

#	Idea	Buyer	How they pay	Channel partner	Startup S\$	Hrs/wk	S\$2k / 4k / 6k	Founder fit	Source
9	Kids' sports gear trade-in / consignment (Book-Off or Once Upon a Child model): kids outgrow kit fast	Parent	30% consignment fee	Schools, clubs	4k	14	maybe / N / N	Athletics, physical goods	Estimate, analogy
10	Runner gait screening memberships (dental-plan model) run through physio clinics, phone-video analysis	Recreational runner; clinic	S\$60 per screen, S\$20/mo plan	Physio clinics, running clubs	2k	8	maybe / maybe / N	Athletics, vibecoding	Estimate, analogy
11	Tuition centre parent-report and renewal tool (auto progress sheets, reminder to renew)	Independent tuition centre owner	S\$99/mo	Founder friends, tutors	1k	8	Y / maybe / N	Vibecoding	NTU on tuition industry
12	Corporate undokai: Japanese-style company sports day run by athletics coaches and officials	HR or admin manager	S\$3k to 8k per event	Founder friends, coaches as staff	2k	10	Y / Y / maybe	Athletics, entrepreneurs	Japan import analogy, estimate
13	In-home cat/dog sitting network for festive peaks, platform fee 15%	Pet owner	S\$30 to 50/day, fee 15%	Vet clinics, condos	2k	12	maybe / N / N	Network	Boarding crunch (Malaysia, regional proxy)
14	STRETCH (time): school-holiday athletics camps (daily presence in peak weeks, coaches hired per week)	Parent	S\$250 to 400 per child per week	Schools, clubs	4k	30 in peak	Y / Y / Y	Athletics	Estimate
15	STRETCH (capital): exclusive Singapore distribution of a Japanese sports-tech brand (S\$25 to 35k stock)	Retailers, clubs	Wholesale margin 35 to 45%	Running shops	30k	10	maybe / Y / Y	Business, sales	Estimate

The 3 I most want tested

#1 Meet-day results: every track meet has the same chore, the Chairman knows the people who run them, it costs under S\$2k, and a free pilot at one club meet is a clean talk test. **#12 Corporate undokai:** high ticket (S\$3k to 8k) so 2 to 3 events a month reaches S\$6k, bought by HR budgets, staffed by athletics friends; "what if we did the opposite" of selling to athletes and sold their skills to offices. **#4 Condo booking tracker:** boring but recurring B2B at 150-300/mo, managing agents are a short, reachable list, and it is pure vibecoding. Honourable mention: #15 for sheer ceiling.

NEW / OVERLAP vs round 1 (clean-slate synthesis)

#	Tag	Round 1 match
1 Meet-day results	NEW	Athletics-specific; nearest is Club and Coach Desk (same buyer type, different job)
2 Coach pool for missing sports	OVERLAP (partial)	Club and Coach Desk (coach supply side; ours is a parent-paid group product)
3 InvoiceNow bookkeeping setup	OVERLAP	"InvoiceNow" was cut in clean-slate (free IRAS/vendor tools). Re-listed as a paid setup service, not software; PROBE to test whether anyone pays
4 Condo booking and deposit tracker	NEW	none
5 Caregiver subsidy navigator	OVERLAP (adjacent)	Dementia home kit (same buyer, service instead of goods)
6 Multi-school pickup	NEW	none
7 Japan taping/recovery goods	OVERLAP (adjacent)	Cut "gym gear" and dried-food import (physical import); different product and buyer
8 Japan track spikes preorder	NEW	none
9 Kids' gear trade-in	NEW	none
10 Gait screening memberships	NEW	none
11 Tuition parent-report tool	OVERLAP	Centre Desk (tuition first) and cut "coach reports"; SchoolTracs is the named incumbent
12 Corporate undokai	NEW (shares HR buyer with CNY Gifting Desk)	none
13 Pet sitting network	OVERLAP (adjacent)	Vet-Shelf / pet line (different product)
14 STRETCH holiday camps	NEW	none
15 STRETCH Japan sports-tech distribution	OVERLAP (adjacent)	Cut direct import ideas (K6/K1); stretch on capital by design

Net: 8 NEW, 7 OVERLAP (3 are only adjacent). The two I would not want lost in clustering are #1 and #12, because nothing in round 1 touches them.

PROBE-CRO

Vetoes suspended. Nothing killed. All links checked 2026-10-08. "est." = my estimate, unsourced. Prices are untested guesses.

#	Idea	Buyer	How they pay	Channel partner	Startup S\$	Hrs/wk	S\$2k / 4k / 6k	Founder fit	Source + demand trend
1	Coach credential tracker (SG-Coach, first aid/CPR-AED expiry, Safe Sport module) with reminders and a club-wide compliance report	Club admin / head coach	S\$49-99/mo per club (est.), recurring	Sports federations, clubs	1-2k	8	Y / maybe / N	Athletics network, vibecoding	NROC: 6,100+ coaches, 89 sports; first aid + CPR/AED mandatory. Safe Sport module due 1 Jan 2025. Structural: compliance recurs
2	Seat bundler: book accredited first-aid/CPR-AED and SG-Coach L1 courses for coach groups, take a referral margin	Coach or club	S\$15-40 per seat commission (est.), recurring renewals	Training providers, federations	<1k	5	maybe / N / N	Athletics network	Federation policy: all coaches SG-Coach L1 + NROC by 1 Jul 2025 (one federation, 6 Feb 2025). Need renews on cycle

#	Idea	Buyer	How they pay	Channel partner	Startup S\$	Hrs/wk	S\$2k / 4k / 6k	Founder fit	Source + demand trend
3	Heat-stress compliance kit (cooling gear, ice packs, spray, training pack) for NON-construction outdoor employers: landscaping, cleaning, security, events, delivery	Operations/WSH manager	S\$300-800 per site kit (est.), reorder	Cleaning, landscaping, FM firms	3-6k	10	maybe / maybe / N	Physical selling, outreach	4 mandatory measures from 1 Dec 2026 (31 Aug 2026). Rule is new; heat is structural. Sector scope unconfirmed; avoid day-job construction
4	Fixed-price "NRIC and PDPA cleanup" for small gyms, studios, clubs, tuition centres	Business owner	S\$600-1,500 once + S\$50/mo retainer (est.)	Accountants, corp-sec firms, landlords	<1k	8	maybe / N / N	Business knowledge, web	PDPC: stop NRIC authentication by 31 Dec 2026; enforcement from 1 Jan 2027 . Spike then maintenance
5	50+ strength and walk-run programme sold to Healthier SG GP clinics (coach-led, clinic refers)	Clinic manager	Monthly retainer or per-participant fee (est. S\$30-60/session)	GP clinics, coaches	2-4k	12	maybe / maybe / N	Athletics coaches	Healthier SG: ~960k enrolled, ~60% aged 60+ (2026). Citizens 65+ at 21.4% (Sep 2026). Structural, ageing
6	First-half-marathon training plans with local athletics coaches (digital plan + group sessions)	Adult recreational runner	S\$99-199 per 12-week cycle (est.)	Run clubs, gyms, race organisers	1-3k	10	maybe / N / N	Athletics network	SCSM goes 2-day Dec 2026; marathon +31%, half +46% over 3 editions; 55k runners . Growing; run boom may be partly trend
7	Corporate run-team programme: coach-led training and entry admin for company teams	HR / engagement lead	S\$1.5-3k per team programme (est.), annual repeat	Race organisers, HR vendors	1-2k	10	maybe / maybe / N	Athletics, outreach	TCS Corporate Challenge exists as annual event (2025) . Participation levels unverified
8	Workplace Fairness Act kit: grievance process templates, setup and annual refresh for small employers	SME owner / HR	S\$400-900 once + S\$200/yr (est.)	Payroll, accountants	<1k	6	N / N / N	Business knowledge	WFA takes effect end-2027; employers need written grievance process . Structural but late; TAFEP offers free templates
9	Senior re-employment service: help SMEs claim PTRG/Senior Employment Credit and redesign part-time roles	SME owner / HR	S\$800-1,500 per application (est.)	Accountants	<1k	8	maybe / N / N	Business knowledge	Retirement 64 / re-employment 69 from 1 Jul 2026 . PTRG up to S\$125k/company. Rising to 65/70 by 2030

Only pre-approved vendors qualify under PSG

#	Idea	Buyer	How they pay	Channel partner	Startup S\$	Hrs/wk	S\$2k / 4k / 6k	Founder fit	Source + demand trend
11	STRETCH Verified-coach directory (NROC-checked, Safe Sport badge) monetised by coach listing fees. Pushes the no-own-audience limit	Parent / coach	S\$10-20/mo listing (est.)	Federations, schools	2-3k	6	N / N / N	Athletics, web	NROC registry exists but is not parent-facing. Parents' enrichment spend S\$48 to S\$260/mo, 2016-2026
12	STRETCH Seniors sports-day-as-a-service: kit (boccia, ladder toss, sport stacking) plus a facilitator for Active Ageing Centres. Pushes the weekday-presence and slow-procurement limits	AAC programme manager	S\$800-2k per event (est.)	AIC, AAC operators	3-5k	15	maybe / maybe / N	Athletics coaches	Seniors National Games 2026: 6,000+ seniors, ~130 centres, 5 adaptive sports. Structural, state-backed

Evidence caveats. NSPS 2025 data sits on data.gov.sg (last updated 17 Apr 2026), but the figures my search returned were internally inconsistent, so I cite none. Last verified: [74% weekly participation in 2022](#) (older than 12 months). Heat-stress sector scope is unconfirmed.

Top 3 to test, and why. (1) **#5 Healthier SG clinics.** It is the only idea here tied to both a state programme with money behind it and the largest demographic shift, and it routes through GP clinics as a partner. The clinic's willingness to refer is the real unknown, and 5 talk-test calls settle it. (2) **#1 Coach tracker.** The deadlines have passed, so what is left is recurring renewal and new-coach churn. It is the closest to Club and Coach Desk, so a talk test with 5 club admins tells us whether compliance is a standalone pain or only a feature. (3) **#3 Heat-stress kits.** It has the hardest deadline (1 Dec 2026) and sells to businesses outside the founder's day job, so it can be tested in two weeks with 5 calls to cleaning or landscaping firms. If the deadline passes untested, the one-time window is lost.

NEW / OVERLAP vs 2026-10-08 clean-slate synthesis

#	Tag	Round 1 link
1	OVERLAP (partial)	Club and Coach Desk. New angle: compliance reminders, not a booking site
2	NEW	none
3	NEW	none (Round 1 had no regulatory-deadline product)
4	OVERLAP	R1 PDPA pack. New angle: NRIC deadline and sports/studio niche, sold direct, not via cosec
5	NEW	Clinic recall was killed, but this sells coaching to clinics, a different product
6	NEW	none
7	NEW	none (adjacent to CNY Gifting Desk buyer: HR)
8	NEW	none
9	OVERLAP (partial)	"Grant tool" kill (EDGE rules unknown). This is a service, not a tool
10	OVERLAP	Club and Coach Desk / Centre Desk. New angle: grant-timed packaging
11	NEW	none
12	OVERLAP (partial)	Dementia home kit shares the ageing driver and AAC/day-care buyer; different product

InvoiceNow (killed in Round 1: free from IRAS/vendors) was dropped from my list. [Phased mandate to April 2031, with free solutions, confirms the kill.](#)

BEACON-CMO

What this world pays for (sourced): Kids' term programmes S\$130-185 ActiveSG, S\$315/term Singapore Athletics ([ActiveSG](#), [SA brochure](#)). Private running coach from S\$70/hr ([search, Oct 2026](#)). Races S\$60-208 per entry ([Kiprun](#), [Singapore Marathon](#), Garmin Run Oct 2026 S\$85-105). Sports physio S\$180-350/visit ([MissLobang](#)). Singapore Runners Club claims 14,000+ members (same SmartLocal page). All other figures below are **estimates**.

#	Idea	Buyer	How they pay	Channel partner	Startup S\$	Hrs/wk	S\$2k/4k/6k?	Founder fit	Source
1	Meet-entry + results hub (entries, payment, live results page) for school/club meets	Club secretary / meet director	S\$300-600 per meet + S\$1-2 per entrant, recurring per season	Singapore Athletics, clubs, school CCA teachers	1-2k	8-12	Y/maybe/N	Athletics network, vibecoding	Network pain; SA event listings
2	Holiday track camps run for coaches who lack admin (we do marketing, payments, venue booking, 20% cut)	Parent	S\$150-250 per child per camp, 4 camps/yr	Coaches, ActiveSG clubs	2-4k	12-15	Y/maybe/N	Athletics, sales	ActiveSG fees above
3	Private-coach matching + booking (take rate 15%)	Parent of school athlete	S\$70-100 per session, repeat	Coaches (supply), school CCA	1-2k	8-10	Y/maybe/N	Athletics network	Coach rate above
4	Corporate 8-week "race-ready" teams: coach plan, group sessions, bulk race entry	HR / wellness manager	S\$1.5-3k per cohort, 4-6 cohorts/yr	Run crews, race organisers (MetaSport), founder friends' firms	1-2k	10-14	Y/maybe/N	Friends, sales	Race fees above
5	US-college athlete recruitment portfolio (video, stats site, outreach templates)	Parent of senior athlete	S\$400-900 one-off	Coaches, education consultants	1k	6-8	maybe/N/N	Website, athletics	Network pain; estimate
6	Group-buy of spikes, blocks, hurdles for clubs and schools	CCA teacher / club treasurer	S\$5-20k orders, 25-30% margin	Coaches, Singapore Athletics	5-10k	6-8	maybe/N/N	Physical products	Estimate
7	Race-day recovery tent: sports massage + stretch at races	Race organiser (sponsor-paid) or runners	S\$25-40 per massage; S\$1-3k tent fee	Physio clinics (S\$105-125 massage supply), organisers	2-3k	8 (events only)	maybe/N/N	Sales	MissLobang; estimate
8	Parent progress app (PBs, attendance, reports) for kids' programmes	Programme operator	S\$150-300/mo each	Private academies, clubs	1k	8	maybe/N/N	Vibecoding	Estimate
9	Adult "learn to sprint" 8-week course (hire coach)	Young professional, 25-45	S\$300-400 per course	Run crews, gyms	2k	8-10	Y/maybe/N	Athletics, friends	Estimate; SRC 14k members
10	Productized 1-week websites for entrepreneurial friends and their referrals, plus S\$99/mo care plan	SME owner	S\$1.5k + S\$99/mo	Friends, accountants, corp-sec firms	0.5k	12-15	Y/maybe/N	Website, friends	Friend network

#	Idea	Buyer	How they pay	Channel partner	Startup S\$	Hrs/wk	S\$2k/4k/6k?	Founder fit	Source
11	STRETCH Athlete-sponsor matchmaking (SME sponsors for youth/national athletes), 15% fee	SME marketing owner	S\$2-5k per deal	Friends, Singapore Athletics	0.5k	6-10	maybe/N/N	Both networks	Stretch: long sales cycle
12	STRETCH Own a branded track series ("Track Night" mile and 400m meets for adults)	Adult runner; sponsor	S\$25-40 entry + S\$3-5k sponsor	Run crews, brands	5-8k	15+ (event days)	maybe/maybe/N	Both	Stretch: weekend presence

Top 3 to test. (4) Corporate race-ready teams: the buyer holds a budget, friends can introduce HR heads, coaches and crews gain paid hours, and it sells in weeks, not months. (2) Holiday camps: parents already pay S\$130-315 per term for this, supply (coaches) sits inside the Chairman's network, and it is cash-up-front. (1) Meet-entry hub: no incumbent I could find on a quick search, every meet needs it, and it builds the club relationships a later Club and Coach Desk would need. Talk test for each: 5 calls to the Chairman's coaches and 5 founder friends, asking "would you pay or refer".

Tags vs round 1 (read after the table)

#	Tag	Against round 1
1	OVERLAP (adjacent)	Club and Coach Desk (same buyer, per-meet payments instead of a coach site)
2	NEW	Not in round 1 (nearest: Club and Coach Desk's coach supply)
3	OVERLAP	Club and Coach Desk (booking side), but a marketplace with take rate
4	NEW	Shares the HR buyer with CNY Gifting Desk, but a service, no stock
5	NEW	
6	NEW	Physical, but unlike round 1 gifting or pet lines
7	NEW	
8	OVERLAP	Club and Coach Desk / "coach reports" (killed in round 1, so the Chairman may want it back)
9	NEW	
10	OVERLAP (partial)	Club and Coach Desk (productized site), but for any SME via friends
11	NEW	Stretch
12	NEW	Stretch

Count: 8 NEW, 4 OVERLAP (1, 3, 8, 10).

Top 3 I want tested

#7 because it is the only idea here that plausibly hits S\$4k: 5 clients a month at S\$1,200 plus a recurring base, with friends as the channel, and it is the least sports-dependent. **#1** because it is the baseline family and a talk test costs nothing; testing it next to **#7** shows whether the athletics niche beats a general local-business niche. **#3** because DSA is a fixed annual date with parents already spending on coaching; it is cheap to build and a coach referral would show instantly whether the channel works. Note my blind spot: all three should get a talk test and a pre-sale before I write code, and a no-code first version (Carrrd, Calendly, Stripe links) is enough.

Tags vs round 1

#	Tag	Round 1 link
1 Coach Site Kit	OVERLAP	Club and Coach Desk (shortlist #2); angle: any sport, productized
2 MeetDesk	NEW	none
3 DSA Athlete Portfolio	NEW	none
4 Kids academy waitlist	OVERLAP	Centre Desk (#1), different job (waitlist/make-up, not enquiry)
5 Results/PB database	NEW	none
6 Events calendar	OVERLAP	killed "directory / event platform" cluster
7 Clinic/tuition site + WhatsApp	OVERLAP	Centre Desk and the killed clinic recall; angle: site-led, one-off fee
8 Coach plan storefront	NEW	merch add-on in #2 is different
9 PDPA-in-a-box	OVERLAP	R1 PDPA pack (previously cut)
10 ActiveSG alerts	NEW	none
11 InvoiceNow micro-invoicing	OVERLAP	killed InvoiceNow
12 Garmin coach dashboard	NEW	nearest is killed "coach reports"

Tally: 6 NEW, 6 OVERLAP. Nothing here is rejected; overlaps with Round 1 kills (#6, #9, #11) are listed so SPARK can cluster them.

LEDGER-CFO

2026-10-09. Vetoes suspended. Base case only; nothing killed. All S\$ are **estimates** unless a link is shown. Net per unit = price minus landed cost, courier and payment fee, before my fixed costs and the Chairman's time. Calc run in Python, inputs below.

#	Idea	Buyer	How they pay	Channel partner	Startup S\$	Hrs/wk	S\$2k / 4k / 6k	Founder fit	Source
1	Club team-kit preorders (singlets, tees, jackets; made-to-order, 50% deposit)	Club manager, school CCA teacher	S\$35-60/piece, annual reorder	Athletics clubs, schools	1-2k (deposits cover stock)	8	Y / maybe / N. Needs ~85 pcs/mo for 2k. Month 4-6	Athletics network	Estimate
2	Startup/corporate merch (drinkware, tote, apparel; 50% deposit)	Founder, HR/admin	S\$8-12/unit, S\$2-5k/order, repeat	Entrepreneur friends	1-2k	8	Y / maybe / N. ~320 units/mo for 2k. Month 6-9	Friends, sales	Shaker FOB US\$1.2-1.8, MOQ 500; logo plate US\$22
3	Office/studio coffee subscription (white-label local roast, delivered monthly)	Office manager, gym/studio owner	S\$18-25 per 250g, recurring	Studios, coworking, friends' offices	1-2k	9	maybe / N / N. ~260 bags/mo for 2k. Month 9-12	Sales	SG roaster prices S\$14-30 per 200-250g
4	Race-week fuel kits (electrolyte, gels, tape, one box; preorder before StanChart/other races)	Runner, parent	S\$40-70/kit, 2-3 seasons/yr	Clubs, race Telegram groups	2-4k	6	maybe / N / N. Seasonal, lumpy	Athletics	Electrolyte S\$2-5 per serving
5	Shoe/spike concierge: US/JP group-buy, fee S\$25/pair, paid in full upfront, zero stock	Athlete, parent	S\$25-40 fee per pair; ~90 pairs/mo for 2k	Clubs, coaches	0.5k	10	maybe / N / N	Athletics	Claimed 30-40% SG price gap; vendor blog, weak; imports over S\$400 CIF pay 9% GST/consumers/consumers-importing-goods-into-singapore)
6	White-label recovery gear (massage guns, compression, rollers)	Runner, physio, gym	S\$80-300 one-off	Physios, coaches (commission)	4-8k	8	Y / maybe / N. 55-60% GM, returns and liability risk	Athletics, sales	Estimate

#	Idea	Buyer	How they pay	Channel partner	Startup S\$	Hrs/wk	S\$2k / 4k / 6k	Founder fit	Source
7	Physio/club consumables (kinesio tape, ice packs, chalk; monthly reorder)	Clinic manager, club treasurer	S\$300-1,500/mo per account	Physio clinics, clubs	2-4k	6	maybe / N / N. 30-40% GM	Sales	Estimate
8	Pet consumables subscription (non-meat: litter, supplements)	Cat owner	S\$30-50/mo recurring	Groomers (uncomfortable: AVS paperwork)	3-5k	8	maybe / N / N	Business	04-setup-costs. md
9	Pre-owned Garmin/premium gear flips (buy, test, resell with 3-month warranty)	Runner, cyclist	S\$150-500; 20-30% per flip	Athletics network	5-10k	18	Y / maybe / N. Hours-heavy, inventory risk	Athletics, sales	Estimate
10	Meet/camp travel packages (parents pay deposit, 12-18% margin)	Parent, club	S\$800-2k per athlete per trip	Clubs, schools	1k + licence check (uncomfortable)	10	maybe / N / N. Travel-agent licensing unknown	Athletics	Estimate
11	STRETCH: exclusive SG distributor for a small foreign sports brand (wholesale about 50% off retail; needs minimum order)	Retailers, clubs	Wholesale, reorders	Retailers	15-20k	15	Y / Y / maybe. Pushes the capital limit	Business, sales	Estimate
12	STRETCH: buy a small profitable web store or subscription at 2-3x annual profit	The Chairman	Buys existing cashflow	Friends, brokers	15-20k	12	Y / maybe / N. Pushes the capital limit and trust	Business	Estimate

Inputs (estimate): kit price 38, landed 14, PayNow fee 1.3% gives net S\$23.5 per piece (62% GM). Coffee 20, bean 9, courier 3 gives S\$7.7 (39%). Merch landed S\$3.6 incl. 9% GST, sells 10, net S\$6.3 (63%). Concierge S\$25 fee, S\$3 costs. Payment fees from [Stripe SG, PayNow 1.3%, cards 3.4% + S\\$0.50](#), checked 2026-10-08.

Top 3 I would test first

#1 Team kits, #2 merch, #5 concierge. Kits and merch are the only ideas here where the customer's deposit funds the stock, so cash risk is near zero and gross margin is about 60%, versus 39% on coffee and 20-30% on the shoe fee. Both reorder annually. Kits also sit on the Chairman's athletics network, which gives a 5-call talk test this week. Concierge is the cheapest test of all (zero stock, full prepayment) and tells us if the athletics network will pay for imports, which decides ideas 4, 5 and 11. Honest ceiling: kits and merch reach S\$2k in months 4-9 on 85-320 units a month, but S\$4k needs repeat B2B accounts, so they are a bridge, not a salary. Ideas 11 and 12 are the only ones that plausibly touch S\$6k, and only by spending nearly all the capital.

1,2,6-8,11	Selling ordinary goods needs only ACRA registration (S\$115 sole prop)	Form and fee	04-setup-costs.md
6	Class A medical devices need an HSA importer/wholesaler dealer's licence plus a QMS declaration. Whether kinesiology tape or braces are Class A: check	Form (device-only); medicines would be closer to a wall	HSA
5	Every workplace must have adequate first-aid boxes. Stay with offices, gyms, schools; construction sites excluded by constraint	Rule drives demand	WSH First-Aid Regs
4	First GeBIZ Trading Partner account is free; full Government Supplier Registration has a fee	Form and fee	MOF
7, 10	Secondhand schedule lists cameras, computers, phones, watches, jewellery, copper cable; sports gear not listed (from a search snippet of the Police-hosted schedule, confirm). Smartwatches count as "watches": S\$165/yr, or a no-fee exemption	Form and fee	SPF
3, 12	A Public Entertainment Licence may apply; an exemption list exists, and exempt events need 7 days' police notice. Not verified for sports meets	Unknown, check	SPF PEL

Top 3 to test

#5 (first-aid refill subscription) is the only row where the law creates the demand and the revenue recurs, so it tests the "recurring physical B2B" model; the risk is that each site is small, so the talk test is how many sites one person can service in the hours. **#9 (studio consumables subscription)** is the one row that plausibly reaches S\$4k on repeat orders alone, and the Chairman's entrepreneurial friends who run gyms and studios make a fast 5-conversation talk test. **#2 (medals and awards)** is the cheapest way to start selling into the athletics network; it needs no licence, takes a deposit before ordering, and a first meet gives a real paid pilot within weeks. I would test #4 next, since GeBIZ is free to enter and school buying is annual.

NEW / OVERLAP vs round 1

Checked against 2026-10-08-clean-slate/synthesis.md. Round 1 killed several of these categories on margin, so rows marked OVERLAP carry that history and need a fresh margin look in converge.

#	Tag	Round 1 link
1	OVERLAP (partial)	Merch/awards as add-ons inside Club and Coach Desk; here a standalone B2B supply line
2	OVERLAP (partial)	Same add-on; here the main product
3	NEW	None
4	NEW	None
5	NEW	None
6	NEW	None
7	NEW	None

#	Tag	Round 1 link
8	NEW	None
9	OVERLAP	"Pantry" (killed on K6/K1 margin, 15-25%)
10	OVERLAP	"Gym gear" (killed on K6/K1)
11	OVERLAP	"Direct import" (died); here own-brand athletics niche
12	NEW	"Event platform" was software; this is running the events

5. Round 2: clustering

SPARK-CIO grouped about 75 ideas into 16 clusters plus 8 orphans, and ranked the top 10 by interest. Unedited.

SPARK-CIO: clustering of all ideas

2026-10-09. 75 ideas from 6 robots. Ids: S=SPARK, P=PROBE, B=BEACON, V=SERVO, L=LEDGER, C=COGSWORTH (e.g. S12 = SPARK #12). Ladder cells (S\$2k/4k/6k per month at 20 hrs) are robot estimates or mine, all **estimates**; no willingness-to-pay data exists yet. Baseline: Club and Coach Desk, per SERVO V1 about Y / maybe / N, plateau near S\$2k to 3k.

All 75 ideas in 17 clusters

Cluster	Merged ideas	Beats baseline on ladder?
1 Corporate sports day and run-team programmes	S12, P7, B4	Plausibly (S\$3k to 8k per event)
2 Productized SME websites via friends	B10, V7, P10	Plausibly (V7 says Y/Y/maybe)
3 Youth camps and coach pool	S2, S14, B2, B3	Plausibly (S14 Y/Y/Y but 30 hrs peak)
4 Meet-day ops hub (entries, results, hire)	S1, B1, V2, V5, C3	Equal, with a better wedge
5 Athletics gear sourcing and distribution	S8, S15, L4, L5, L11, C11, B6, C4	Only S15/L11 (capital stretch)
6 Adult and senior coached programmes (clinic/AAC channel)	P5, P6, P12, B9, S10	Maybe
7 Recurring site-supply subscriptions	C5, C9, L3, P3	C9 Y/Y/maybe
8 Deposit-first kit, merch, awards	L1, L2, C1, C2, C8	No (bridge, per LEDGER)
9 SME rule-change setup services	S3, P4, P8, P9, V9, V11	No (spike, then maintenance)
10 Own events series (Track Night, youth series)	B12, C12	Maybe (stretch, event days)
11 Recovery goods wholesale	S7, L6, L7, C6, B7	No
12 Pre-owned and consignment gear	S9, C7, L9, C10	L9/C10 Y, hours-heavy
13 Tuition and kids-studio retention tools	S11, V4, B8	No (SchoolTracs)
14 Club and Coach Desk family (baseline)	V1, V8, V12, P1, P2, P11	Is the baseline
15 Athlete recruitment and DSA portfolio	B5, V3	No
16 Pet products and sitting	S13, L8	No
Orphans	S4, S5, S6, B11, V6, V10, L10, L12	see below

Top 10 clusters by interest

Rank	Cluster	One line	Buyer	Channel	Founder fit	Proposed by	Ladder (est.)	Why interesting
1	Corporate sports day and run-team programmes	Japanese-style undokai, 8-week race-ready teams, coach-led for company staff	HR or wellness manager	Founder friends' firms, race organisers, coaches as staff	Athletics, friends, sales	SPARK, PROBE, BEACON	2k Y / 4k Y / 6k maybe, 3 to 6 mths	3 robots found it independently; high ticket, athletics skills sold to a budget holder; no stock
2	Productized SME websites via friends	7-day clinic/tuition/studio site plus WhatsApp booking, care plan	Clinic, studio or tuition owner	Friends, accountants, grant consultants	Vibecoding, websites, friends	SERVO, BEACON, PROBE	2k Y / 4k Y / 6k maybe, 2 to 4 mths	Only cluster where a talk test could be sold the same week; ties to EDGE grants
3	Youth camps and coach pool	Holiday camps and vetted small groups run for coaches who lack admin	Parent	Coaches, ActiveSG clubs, schools	Athletics network	SPARK, BEACON	2k Y / 4k Y / 6k Y at peak, 3 to 6 mths	Cash up front, coaches already inside network; hours spike in holidays
4	Meet-day ops hub	Entries, payment, live results, hire and medals for school/club meets	Meet director, club secretary	Singapore Athletics, clubs, CCA teachers	Athletics, vibecoding	SPARK, BEACON, SERVO, COGS	2k Y / 4k maybe / 6k N, 3 to 5 mths	No incumbent found; one free pilot is the talk test; opens every club door
5	Athletics gear sourcing and distribution	Concierge, group-buy, then exclusive Japanese or Asian brand distribution	Athletes, parents, clubs, retailers	Clubs, coaches, running shops	Athletics, physical goods	SPARK, LEDGER, BEACON, COGS	Concierge 2k maybe; distribution 4k Y / 6k Y, 9 to 12 mths	Zero-stock concierge tests demand; stretch version has the highest ceiling
6	Adult and senior coached programmes	Coach-led 50+ strength, half-marathon plans, learn-to-sprint, AAC sports days	Clinic manager, AAC manager, runner	GP clinics, run crews, AIC	Athletics coaches	PROBE, BEACON, SPARK	2k maybe / 4k maybe / 6k N, 6 to 9 mths	Healthier SG money plus ageing; clinics refer, so partner-led
7	Recurring site-supply subscriptions	First-aid refills, studio consumables, heat-stress kits, office coffee	Office, gym or studio manager	Studios, property managers, friends' gyms	Sales, outreach, friends	COGS, PROBE, LEDGER	C9 2k Y / 4k Y / 6k maybe, 6 to 9 mths	Rule or habit creates recurring demand; stack onto cluster 2's studio customers
8	Deposit-first kit, merch, awards	Made-to-order singlets, startup merch, medals; 50% deposit funds stock	Club treasurer, founder, HR	Clubs, schools, friends	Athletics, friends	LEDGER, COGS	2k Y / 4k maybe / 6k N, 4 to 9 mths	Near-zero cash risk, sells straight into clusters 1 and 4
9	SME rule-change setup services	NRIC, InvoiceNow, re-employment grants, fairness kit as fixed-price setups	SME owner	Accountants, cosecs, friends	Business knowledge	SPARK, PROBE, SERVO	2k maybe / 4k N, 1 to 3 mths	Hard deadlines force spend (NRIC 31 Dec 2026); R1 killed the software form, not the service
10	Own events series (Track Night)	Branded adult mile/400m nights or a youth meet series with sponsors	Runner, sponsor	Run crews, brands, friends' firms	Athletics, friends	BEACON, COGS	2k maybe / 4k maybe / 6k N	STRETCH on weekend hours; a brand that compounds and feeds clusters 1, 4, 8

Orphans worth a second look

Idea	Why
S4 Condo move-in/renovation booking tracker	Y/Y/maybe at S\$150 to 300/mo, short buyer list, pure vibecoding. Touches construction: see flag
S5 Caregiver subsidy navigator	Same buyer as the dementia kit, service not stock
B11 Athlete-sponsor matchmaking	Uses both networks; 15% of S\$2 to 5k deals (stretch)
L12 Buy a small profitable web store	Instant cashflow; a different path to income (stretch, capital)
S6 Walking bus	Real parent pain but 20 hrs/week

Cross-cutting (athletics network, friends, vibecoding)

Thread	Clusters	Idea
Same buyer, one relationship	4, 8, 14	Sell the club treasurer the stack: results hub, kits, medals, hire, then Club and Coach Desk
Friends as buyer and door-opener	1, 2, 7, 9	One talk test with 5 founder friends covers corporate days, sites, studio supplies and setup
Coaches as paid staff	1, 3, 6	One coach pool serves camps, corporate days and clinic programmes
Vibecoded tools as the door, not the product	4, 14, 2	Free results page or site pilot wins the account for higher-margin services

Day-job exclusion check (modular buildings and construction)

Item	Flag
P3 heat-stress kits (cluster 7)	The new rule is aimed mainly at construction. Only non-construction employers; check sector scope
C5 first-aid refills (cluster 7)	WSH-driven; COGS already excludes worksites. Keep to offices, gyms, schools
S4 condo renovation tracker (orphan)	Contractor passes and renovation sit next to construction. Condo managing agents are not the day job, but needs the Chairman's call
All other clusters	Clear

Reading: ranks 1 to 4 plausibly beat Club and Coach Desk on ceiling or on wedge. What if we did the opposite and sold the athletics skills to offices instead of to athletes?

6. Round 3: attack (vetoes on)

The five core robots attacked the top 10 clusters from their own lens and compared each with Club and Coach Desk. Unedited.

PROBE-CRO

PROBE-CRO: Challenge (Round 3, vetoes on)

Checked 2026-10-08. "Unsupported" = no source found, not proven false. Baseline = Club and Coach Desk (CCD).

Five load-bearing claims checked

Claim (who)	Verdict	Source + date
Corporate undokai or run team earns S\$3-8k per event and nothing like it exists (SPARK, BEACON)	Price Supported, "no rival" Contradicted . Team building runs S\$30-80/pax, full-day outdoor S\$150-250/pax, crowded (vendor blogs). HPB WOW co-funds S\$135 per hour session, but only via HPB panel providers (article is 2021, stale)	OneD. 2026. Dollars & Sense. 16 Jul 2021
Meet hub has "no incumbent" (SPARK, BEACON, SERVO)	Partly contradicted . SA already runs e-registration and Team Manager Lite entry files, plus electronic timing at open meets. Small school meets: unknown. Meet count per year: unsupported	SA archive. 2023
Holiday camps sell at S\$150-400 per child-week (BEACON, SPARK)	Contradicted as a price anchor . ActiveSG holiday programmes cost S\$36-54 (citizens), and credits offset 60%	Little Day Out. 2026
Heat-stress kits suit non-construction employers (PROBE R1, COGS)	Scope now resolved : rule covers all outdoor work, no sector carve-out. The measures are training, water, ice packs or spray, clothing, and MOM says employers already widely adopt them. So the kit is a small top-up	MOM. 28 Aug 2026
S\$1.2k site plus S\$59/mo is a viable package (SERVO)	Supported but commodity. Freelancers S\$500-2,500, studios S\$800-5,000. Clinic sites S\$8-22k, so clinics are not a low-end buyer	Maple Tree. 2026

Top 10 clusters

#	Cluster	Key assumption	Severity	Cheapest test	Demand type
1	Corporate days	HR pays a premium over S\$50-150/pax team building for athletics coaches	Major	Quote 5 friends' HR heads; ask for a deposit	Structural budget, but discretionary
2	SME sites	A friend referral beats S\$500-2,500 freelancers	Major	Pre-sell 3 sites at S\$1.2k	Structural, commodity
3	Youth camps	Parents pay 4 to 7 times ActiveSG	Fatal at S\$150+	Ask 10 parents against ActiveSG price	Structural, price-capped
4	Meet hub	10 or more paying meets a year (estimate)	Major	Count meets on the SA and school calendars. One free pilot	Structural, tiny
5	Gear sourcing	Athletes pay a fee over the S\$ price gap	Major	Zero-stock concierge, 5 prepaid pairs. 30-40% gap is a vendor blog	Structural, low margin
6	Adult and senior	Clinics refer unpaid or pay	Major	5 clinic and AAC calls	Structural (65+ at 21.4%)
7	Site supplies	Sites switch supplier for a small saving	Major	5 studio owners. S\$200-800/mo is unsourced	Structural (first aid), habit otherwise
8	Kit and merch	Treasurers pay 50% deposits	Minor	Quote 3 clubs	Structural, commodity
9	Rule-change setup	Demand lasts past 31 Dec 2026	Fatal	3 cosec calls	Dated spike
10	Track Night	Adults pay for a mile night	Major	Run crew poll	Trend (run boom)

K3 vetoes and evidence blocks

Item	Action	Why
Cluster 9 as a standalone business	K3 veto	The NRIC deadline is a one-off, and retainers are unproven (PDPC). It stays only as a free add-on to cluster 2
Heat-stress kit (P3)	K3 veto	One-time window, small ticket, scope includes construction
Cluster 10	K3 warning	Trend-driven. Not vetoed, since it is a stretch
S\$150-400 camp price; "no incumbent" for meets; S\$3-8k per event; S\$200-800/mo consumables	Evidence block	Label them "estimate" until tested

My top 5 versus CCD

Rank	Idea	vs CCD	Why
1	Cluster 2 (SME sites)	Better	Larger buyer pool on the same skills. The price band is sourced. The risk is no wedge, so lead with the athletics and studio niche
2	Cluster 1 (corporate days)	Better on ceiling, equal on evidence	A single HR budget decision. Needs the deposit test first
3	Cluster 6 (adult and senior)	Equal	Strongest structural driver (Healthier SG about 960k enrolled, 2026), but slowest to cash
4	Cluster 4 (meet hub)	Equal	Same buyer as CCD. Cheap pilot, but the meet count caps it near S\$2k
5	Cluster 8 (kit and merch)	Worse alone	Commodity margin. Useful only as an add-on to clusters 4 and 1

I tried to break cluster 6's structural-demand claim and couldn't, because the ageing and Healthier SG figures are sourced and dated 2026. Its weak point is the clinic's willingness to refer, not the demand.

Veto / evidence blocks: K3 used on cluster 9 and the heat-stress kit. Evidence blocks as listed. Source? Date? Sample size?

BEACON-CMO

2026-10-09. All conversion, price and income figures are **estimates** unless linked. Network size is assumed (Chairman to confirm): about 15 coaches/club officials and 10 founder friends reachable by name.

1. Buyer and introducer, top 10 clusters

#	Cluster	Exact buyer	Who introduces us	Verdict
1	Corporate sports day / run teams	HR or wellness manager, firm of 50+ staff	Founder friends, athletics parents who work in HR	Path real, slower than SPARK says
2	SME sites + care plan	Clinic, studio, tuition owner	Founder friends and their referrals	Path real, fastest
3	Youth camps	Parent	Coaches (supply), club parent chats	Path real; model matters (see 3)
4	Meet-day hub	Meet director, CCA teacher	Chairman's coaches and officials	Path real, ceiling low
5	Gear sourcing	Athlete, parent; retailers for distribution	Coaches; no retailer introducer	Concierge ok, distribution K5 veto
6	Adult/senior programmes	Clinic or AAC manager	None named	Clinic version K5 veto
7	Site-supply subscriptions	Gym or office manager	Only friends who own gyms	Standalone K5 veto ; keep as add-on
8	Kit, merch, awards	Club treasurer, founder, HR	Same as 4, 1, 2	Not standalone; stack only
9	SME rule-change setups	SME owner	Accountants have no incentive; friends only	Add-on to 2, deadline 31 Dec 2026
10	Own events series	Runner, sponsor	Needs own audience	K5 veto (audience-first, sponsors slow)

2. Web checks on the 5 most promising (searched 2026-10-09)

Cluster	Finding	Effect
1	Team-building firms sell sports days at S\$30-80 per pax ; Adventour claims 1,500+ corporate clients . Demand for corporate running is real: 14,380 runners, 423 companies at the 2019 JP Morgan Challenge . ActiveSG offers free workplace running clinics	Incumbents exist but none sells athletics-coach quality. Our wedge: "race-ready in 8 weeks", not "team building"
2	Template sites S\$1-3k, small-business sites S\$3-6k	S\$1.2-1.5k plus plan is at the low end; crowded, so only the friend channel works
3	ActiveSG holiday athletics for ages 5-10 is subsidised 30% for citizens	Price anchor is low. S\$250-400 a week needs a clear reason (small groups, named coach)
4	Singapore Athletics historically used Hy-Tek Team Manager and had 23 affiliated clubs (2011, stale)	Few buyers. At S\$300-600 per meet, S\$2k a month needs about 4-6 meets a month; unlikely
6	Healthier SG referral already runs through SportSG and NHG shared referral programmes	A GP can refer to a free or subsidised option. Paid private clinic channel has no clear incentive

3. First 10 customers (conversion ranges, estimates)

Cluster	Route	Funnel
1	Ask 10 friends; 3-6 have a firm of 50+ staff; 50-70% will introduce; 20-35% of HR meetings buy a cohort at S\$1.5-3k	10 friends give 0.4-1.5 buyers. Add athletics parents and coaches' employers. First 3 buyers in 2-4 months; 10 in 8-12 months
2	10 friends give 25-40 owner intros; 10-20% buy	3-6 sites from one round. 10 customers in 3-5 months
3	8 coaches, 20-40% accept; a camp fills 12-25 kids	At a 20% cut a 20-child, S\$250 camp pays ROD about S\$1k. The Y on S\$2k assumes ROD owns the camp and pays coaches as staff
4	One free pilot at one club meet; then 5-10 meets a year	First 10 meets in 12 months. Door-opener, not an income

Talk test (all clusters): 5 conversations each. Pass only on an action, not praise: a named intro within 7 days or a deposit, from at least 2 of 5. Ask founder friends for cluster 1 and 2 (same sitting); ask 5 coaches for 3 and 4.

4. My TOP 5 vs Club and Coach Desk (baseline: coach/club buyer, S\$2-3k plateau)

Rank	Idea	S\$2k / 4k / 6k, time (est.)	vs baseline
1	Corporate run teams, with undokai as the big-ticket upsell (1)	Likely / maybe (needs events) / N; 2k at 6-12 months	Better. Budget-holder buyer; baseline buyers are coaches with free Spond
2	SME site + care plan + NRIC setup (2, 9)	Likely / maybe / N; 2k at 3-6 months	Better. Wider, paying buyer. Baseline is the athletics slice of this
3	Athletics club stack: meet hub as free door, then kits, medals, then baseline (4, 8, 14)	Maybe / N / N	Equal ceiling, better wedge. Same buyer; the pilot earns the account
4	Camps run by ROD with coaches as staff, Dec 2026 pilot (3)	Maybe / maybe / N (holidays only)	Equal. Cash up front, but seasonal and 20 to 30 hrs in peak weeks
5	Adult learn-to-sprint and half-marathon blocks via run crews and the same coach pool (6, no clinic)	Maybe / N / N	Equal. Consumer-facing, but shares coaches with 1 and 4

5. Stacking (one buyer, several purchases)

Buyer	Stack
Founder friend / SME owner	Site (2) + NRIC setup (9) + merch (8) + studio supplies (7)
HR manager	Run team (1) + team kit (8) + staff programme (6)
Club treasurer / meet director	Results hub (4) + kit and medals (8) + baseline (14)
Coach pool (supply)	Camps (3), corporate cohorts (1), adult blocks (6)

Tried to break and couldn't: SPARK's rank-1 claim that corporate programmes beat the baseline. I looked for a free substitute and a crowded field; both exist, but neither offers athletics coaching to an HR budget. **Vetoed used:** K5 on clinic channel (6), gear distribution (5), standalone supplies (7), own events (10). **Who exactly buys, and who introduces us?** Clusters 1 and 2 have names to ask. The rest need the Chairman's confirmation of who they can actually reach.

SERVO-CTO

2026-10-09. All hours and S\$ are estimates unless linked. Rule applied: no code before a deposit or a signed pilot.

1. "It's just a simple MVP": cluster by cluster

#	Cluster	Software share	Build h	Upkeep h/wk (tech only)	Tool S\$/mo	No-build test first	Severity
1	Corporate sports day	5%	5 (quote PDF)	0	0	Quote PDF to 5 founder-friend HR heads, 50% deposit	Minor tech; ops 10 to 14 h is the cost
2	Productized SME sites	70%, but templated	30 template + 10 per client	3 to 5 at 10 sites (backups, edits, form PDPA)	20 to 40	Sell one site on Carrd/Wix + Calendly + Stripe link	Major: upkeep scales with clients
3	Youth camps	15%	6	1	0 to 25	Google Form + PayNow link, pre-sell 8 spots	Minor tech; minors' data (PDPA)
4	Meet-day hub	85%	80 stated, 120 real	3 to 5 in season, Saturday 7am support	25 to 35	Google Form entries, PayNow, Sheet, published results page	Major
5	Gear sourcing	10%	4	0	0	Prepaid concierge post in a club WhatsApp chat	Minor tech
6	Adult/senior programmes	5%	4	0	0	Clinic pilot, paper sign-up	Minor tech
7	Site-supply subscriptions	10%	6	1	0 to 15	Invoice + Stripe subscription link	Minor tech; delivery is ops
8	Deposit kit/awards	5%	6	0	0	Order form + deposit link	Minor tech
9	SME rule-change services	10% (templates)	0	0	0	3 accountants asked to refer	Major: liability, not tech
10	Own events series	30%	3	1	0	Rent entry from a platform, not build	Minor tech

Finding: 8 of 10 need a form, a payment link and a sheet, not software. Only 2 and 4 are real builds.

2. One reusable layer, not a platform

Clusters	Shared need	Cheapest form
3, 4, 6, 8, 10, baseline	Entries or sign-ups, payment, member record, confirmation, results or list page	One single-tenant template per organiser: Google Form + Sheet + PayNow/Stripe link + static Cloudflare Pages page. About 40 h once, 2 h/wk upkeep cap

Multi-tenant SaaS stays vetoed (decided 2026-10-08). Cloudflare Pages static hosting is free ([costbench](#)). Stripe SG is 3.4% + S\$0.50 on cards and 1.3% on PayNow ([worldfirst](#)).

3. Competitor check on the 3 most software-heavy

Cluster	Finding (searched 2026-10-09)	Effect
4 Meet hub	BEACON/SPARK "no incumbent" is wrong . HY-TEK Meet Manager is US\$349 to 499 one-time (HY-TEK). Athletic.net AthleticLIVE is US\$29 per meet (Athletic.net). Race Roster runs road-race entry. Singapore Athletics still posts PDF results (SA archive). Whether SG school meets use HY-TEK is unverified	S\$150 to 300 per meet must beat US\$29. Wedge is local payment and school workflow only. Ceiling about S\$2k
2 Sites	Freelancer sites run SGD 1,500 to 8,000; basic packages SGD 2,000 to 5,000; small-site care plans SGD 50 to 350/mo (launchd). Wix/Squarespace S\$14 to 49/mo	S\$1,200 + S\$59/mo is under market, so price is not the risk. Upkeep is
Booking/payment layer (3, 6, 10, baseline)	Spond free, payments USD 1 + 3.29% (G2); Calendly Teams about US\$16 to 20/mo (Cal.com); Cal.com free tier	Off-the-shelf covers it. Custom is worth building only for athletics-specific fields

4. Vetoes (build feasibility)

Vetoed	Reason
Phone photo-finish timing and live results as a service (S1/cluster 4)	Accuracy on minors' results, Saturday-morning support, and 120 h before any meet director has said yes. Allowed: Sheets version
Garmin/Strava coach dashboard (V12)	API partner approval, 120 h
InvoiceNow micro-invoicing (V11)	Needs a Peppol access point; free incumbents
S4 condo tracker	Multi-tenant plus contractor passes sit beside the day job. Needs the Chairman's call
Any custom camp or kit-ordering app	Forms do it

5. My TOP 5, each vs Club and Coach Desk

Baseline: about 6 h to launch, 7.3 h/wk steady, plateau S\$2 to 3k, partner supply unproven.

Rank	Pick	Build h / upkeep h/wk	Vs baseline
1	Cluster 1 corporate sports day	5 / 0 tech	Beats: S\$3 to 8k per event, no software, buyer holds a budget. Could not break it on tech; demand is the open question
2	Cluster 2 sites, sold to two niches at once (clinics/studios and coaches)	30 / 3	Beats: baseline is the coach-niche subset of this. A friend-led talk test runs both. Cap clients at 8 to stay under the 2 h/wk veto line
3	Cluster 3 youth camps	6 / 1	Beats: cash up front, no software. Fails on hours at 30 h peak, so cap at 2 camps a year
4	Cluster 8 deposit kit and awards	6 / 0	Ties on ceiling (S\$2k), cheaper. A bridge that feeds clusters 1, 3, 4
5	Cluster 4 meet hub, Sheets version, free pilot only	8 / 1	Door-opener, not a product. Worse than baseline on money, better on access to every club

Not broken, honestly: I tried to break cluster 1's tech needs and couldn't, because a quote PDF, a Stripe link and a Sheet cover it. I did not test demand, which is not my lens. Blind-spot check: my top 5 is deliberately the least-code list. Nothing gets coded until 2 deposits.

Nothing is "just" anything. Who maintains it at 2am?

LEDGER-CFO

LEDGER-CFO: Challenge (Round 3, converge, vetoes on)

2026-10-09. Python model, 24 months, 20 hrs/wk = 86 hrs/mo x 85% = 73 productive. Net = after tools, payment fees, delivery cost; before the Chairman's pay and tax. "Net m12" is that month's net. "1st month" = first month whose trailing 3-month average net reaches the rung (m13+ is extrapolation). All inputs are *estimate* unless sourced below.

Baseline re-run at 20 hrs. Club and Coach Desk (S\$500 + S\$49/mo, 8% / 3% win, intros 40 / 15 a month): 10 hrs gives S\$1.8k / S\$0.3k (matches the S\$1.9k / S\$0.3k I published); 20 hrs gives **S\$2.5k / S\$0.3k**, 27 vs 4 clients. Extra hours barely move it because intro supply binds, not hours. Doubling intros to 80 gives S\$3.7k, which is a partner question.

Unit economics (base / downside)

#	Cluster	Price (est)	Customers m3 / m6 / m12, base	Acquisition: hrs and S\$ per win	Tool + pay cost	Gross margin	Net m12 base / down
B	Club and Coach Desk	S\$500 + S\$49/mo	2 / 11 / 27 clients	10 h, S\$40	S\$8 per client + 3.5%	85%	S\$2.5k / S\$0.3k
1	Corporate sports day and run teams	S\$4,000 vs S\$3,000 per event	0 / 0.6 / 1.6 events a month	12 h, S\$100	1.3% PayNow; S\$800/yr insurance	62% / 49%	S\$3.7k (yr avg 1.9k) / S\$0.7k
2	SME websites via friends	S\$1,200 + S\$59/mo vs S\$800	2 / 3 / 3 builds a month; 18 care clients	10 h, S\$40	S\$4 per care client; 1.3% / 3.5%	95%	S\$4.3k / S\$0.8k
3	Youth camps (self-run)	S\$250 vs S\$180 per child-week	12 / 18 / 28 kids per camp week	8 h a week, S\$300 per window	Coach S\$35/h, venue S\$100 per coach-week	56% / 22%	Sep S\$3.4k, yr avg S\$1.1k / S\$0.7k
4	Meet-day ops hub	S\$450 + S\$1.5 per entrant (about S\$675)	0 / 1.2 / 2 meets a month	5 h, S\$0	S\$60/mo	90%	S\$1.3k (bundle with awards S\$2.0k) / S\$0.3k
5a	Gear concierge	S\$25 per pair	18 / 46 / 55 pairs a month	0.1 h	S\$3 per pair	88%	S\$1.2k / S\$0.3k
5b	Brand distribution, S\$14k stock	38% GM on S\$8k sales a month	none / 2 accounts / 8 accounts	15 h, S\$100	Freight, 9% import GST	38% / 28%	S\$2.5k / S\$0.2k
6	Adult and senior programmes	S\$25 vs S\$18 per session	0 / 12 / 32 participants	15 h per clinic, S\$50	Coach S\$55/h, venue S\$20, 10% clinic fee	49%	S\$3.3k / about S\$0
7	Studio consumables subscription	S\$400 vs S\$250 per account	1 / 6 / 17 accounts	10 h, S\$60 samples	Delivery in the margin	33% / 24%	S\$2.0k / S\$0
8	Deposit-first kit, merch, awards	S\$2.5k per order	0.4 / 1.6 / 2 orders a month	6 h, S\$40	1.3%	48% / 35%	S\$2.3k / S\$0.15k
9	SME rule-change setup	S\$900 + S\$50/mo vs S\$600	4 / 3 / 2 jobs a month (spike, then decay)	8 h, S\$30	Minimal	90%	S\$2.0k, settles near S\$1.6k / S\$0.3k
10	Own events (Track Night)	S\$30 entry + S\$2.5-5k sponsor	quarterly events, 60 to 150 runners	20 h a month, S\$800 promo	Card 3.4%; venue and timing S\$4k per event	40%	-S\$0.4k, year-1 cumulative -S\$1.9k / -S\$11k

Income ladder: first month at the rung (base; downside never gets there unless stated)

#	S\$2k	S\$4k	S\$6k	vs baseline (base and downside both)
B	m8	no (S\$3.5k at m24)	no	is the baseline
1	m9	about m11 (seasonal peaks)	only at 2.8 events a month (m10, hours cap)	Beats: ceiling and downside
2	m4	m10	no	Beats: ceiling and downside
3	year 2 average (S\$2.4k); peaks S\$6.6k	no	peak months only	Peak yes, steady no; 30 hrs in peak weeks
4	no (S\$0.7k); bundle S\$1.1k	no	no	Door-opener, not an income
5a / 5b	5a needs 93 pairs a month; 5b m12	no	no	Below baseline
6	about m9	about m12 at S\$30	no	Base beats, downside does not
7	m14	m24	no	Below
8	m8	no	no	Equal base, weaker downside
9	m4 (deadline spike)	no	no	Equal base, faster cash
10	year 2 average S\$1.35k	no	no	Below

Vetoos (numbers)

Veto	Where	Clears if
K6	3 at S\$250 and 8 kids per coach: 56% against the 60% service floor	S\$280 per child-week, or 10 kids per coach (64%; check safeguarding ratio)
K6	6 at S\$25: 49%	S\$35 per session (60%); S\$30 gives 55%
K6	7 downside 24% against 30% physical; first-aid refills at S\$25/mo need 223 sites for S\$2k	account price S\$272 or more; drop first-aid
K1	5b as written (S\$25-35k stock)	MOQ at S\$14k or less, or consignment; K7 then marginal (profit only at m12)
K7	10: year-1 cumulative -S\$1.9k base, -S\$11k downside	Event cost at or below S\$2.5k via sponsor-in-kind venue and timing (cumulative about +S\$2.6k, quick calc)
K6	1 downside (S\$3,000, 49%)	Never sell below S\$3.8k at S\$1.5k delivery cost

Assumptions I attack

Assumption	Severity	Cheapest test
1: HR buys at S\$4k from a new sole prop; 1.6 events a month needs roughly 76 warm HR conversations a year	Major	Quote 5 friends' firms with a 30% deposit
2: 3 builds a month from friends, no more than 10 h of selling per win	Major	Pre-sell 3 sites at S\$1,200 before building the template
3: Coach S\$35/h, venue S\$100 per coach-week (unsourced)	Major	One track-hire quote, 3 coach quotes
6: Seniors pay S\$25 or more; clinics refer 8 each	Fatal at S\$18	3 GP clinic managers
8: 48% margin against print-shop quotes	Minor	3 printer quotes

Sourced inputs (checked 2026-10-09)

Input	Result	Weakness
Team building S\$30-80 per pax, full-day outdoor S\$150-250	A 40-pax day at S\$100 is S\$4k	Vendor blog, not a quote
Kids' athletics SA S\$315 per term, ActiveSG holiday S\$36-77	S\$250 per camp-week is plausible; the subsidised rate is the downward anchor . S\$250-400 is not confirmed	The ActiveSG rate is subsidised
Basic websites S\$1,000-3,000	S\$1,200 sits at the low end	Vendor blog; no data on clinics
Track and venue hire	Not found (search failed)	Feeds clusters 1, 3, 10

My top 5

Rank	Idea	Because
1	Productized SME sites (2)	I tried to break the S\$4.3k and couldn't, because 3 builds a month needs under 30% of the hours and the margin is 95%. The downside is S\$0.8k, so it is still a job in disguise
2	Corporate sports day (1)	Only cluster whose ceiling reaches S\$6k (at 2.8 events), but it holds a 62% GM with no slack. Price floor S\$3.8k
3	Kit, merch and awards stack with the meet hub (8 + 4)	Deposits fund stock; S\$2.0-2.3k with low cash risk. This is a door-opener for 1 and the baseline
4	SME rule-change setups (9)	The 31 Dec 2026 deadline gives cash in m3-4; plateau S\$1.6k
5	Adult and senior programmes (6)	S\$3.3k base if price is S\$30 or more. Downside near zero, and it is untested

Camps (3) are the reserve, at S\$280 or more per child-week. The baseline is beaten at 20 hrs only by 1 and 2, on both base and downside.

COGSWORTH-COO

2026-10-09. Hours, S\$ and capacity are my **estimates** (built bottom-up from the R1 files). Baseline: Club and Coach Desk = 6 h/wk launch, 7.3 steady, S\$1.9k/mo base (clean-slate synthesis, estimate). Assumption to confirm: the Chairman works weekday days, so "20 hrs" means evenings and weekends.

1. Real weekly hours and capacity of one person

Cluster	Launch h/wk (wks 1-8)	Steady h/wk	What one person handles	Net S\$/mo at that load	Weekday daytime?
1 Corporate days / run teams	14	16-18	2 undokai + 1 cohort a month (about 20 h per event incl. sales; coaches hired)	3-4k	Weekend events; cohorts evenings
2 SME websites	18 (30 h template)	14-16	4 builds a month (15 h each incl. selling) + about 25 care plans	3.5-5k	No
3 Youth camps	15	6 avg, 30-35 in a camp week	One camp at a time, 40-60 kids, 4-6 coaches	4-6k per camp week, about 1.5k/mo averaged	Yes (school holidays)
4 Meet-day hub	12 (80 h build)	8	4-5 meets a month, in season only	1.5-2.5k	Weekends
5 Gear concierge	8	10-14 (returns, sizing)	60-90 pairs a month	1.5-2k	No
6 Adult / senior programmes	12 (slow sales)	8-12	3-4 clinics or centres, coach-delivered	1-2k	Yes
7 Site-supply subscriptions	10	First-aid 12-18 for about 50 sites; studios 14-18 for 15	See right	First-aid 0.5-1k; studios 1.9k at 25% margin	Yes (deliveries)
8 Kits / merch / awards	8	7-9	4 orders a month (about 7 h each)	1.5-2k	No
9 SME rule-change setup	14	11 in spike, 4 after	5-6 clients a month (about 10 h each)	3-4k for about 3 months, then 0.3k	No
10 Track Night series	18-20	7-8 avg (30 h per event)	One event a month	1.5-3k, needs a sponsor	Weekends

Stacking: Baseline (7) + cluster 8 (8) fits at 15. Baseline + cluster 1 is 23-25, which is over. "That's 30 hours a week. You have 20." (camp week).

2. Walls versus forms (4 verified, checked 2026-10-09)

Rule	Hits	Verdict	Evidence	Gap
Public Entertainment Licence	1, 3, 4, 10	Form for company-run, non-public events. SPF takes about 3 weeks; exempt events need 7 days' police notice	SPF PEL . Search snippet of the Act: a "sporting contest" is public entertainment "other than" one organised by a registered society, company or association	I could not open the Act (403) or the exemption PDF (binary). Fees and open-ticket events unconfirmed
HSA dealer's licence	5, 7	Form and fee if buying locally and selling to end-users. Real wall if ROD imports (importer's licence plus QMS declaration)	HSA dealer's licence : wholesaler licence "not required for supply to end-users"	Whether tape is Class A, and fees, not shown
Child safeguarding	3, 6	Not a legal wall . Commercial wall: venues, schools and SportSG channels expect registered coaches	MCCY : NROC / Safe Sport voluntary for private operators, no mandate	Page is silent on background checks. Private Education Act (10+ learners) for sports camps: snippet only, unverified
MOM heat-stress rule (4 measures, 1 Dec 2026)	7	Demand is real but the buyer is construction	MOM covers "outdoor workers"; sector split not in sources	Cannot size a non-construction market

Not checked: SFA or AVS (coffee, pet), all outside my top 5. Insurance (public liability and accident cover, S\$300-1,500/yr per 04-setup-costs.md, estimate) applies to 1, 3, 6 and 10 and is a cost, not a wall.

3. Day-job exclusion

Item	Flag
P3 heat-stress kits (cluster 7)	Touche construction . Drop, or restrict to cleaning, landscaping and security. I would drop it
C5 first-aid refills	WSH-driven, same worksite risk. Offices and gyms only
S4 condo renovation tracker	Contractor passes sit next to the day job. Chairman's call. My lean is no
All others	Clear

4. Vetoes (used sparingly)

Veto	Target	Reason
K2	S14 camps as written (30 h in peak, weekdays)	Fails hours and the weekday-day assumption. The agent model (S2/B2, 12-15 h) survives
K2	C5 first-aid refills as an income line	\$S\$0.5-1k net for 12-18 h, so \$S\$2k needs about 200 sites
K4	Not used. Every wall above is a form or a fee	

5. My TOP 5 against Club and Coach Desk

Rank	Cluster	Steady h/wk	Net S\$/mo	vs baseline	I tried to break it and...
1	1 Corporate days / run teams	16-18	3-4k	Higher ceiling, 2x the hours, lumpy	...couldn't on licensing: company-run, private events are exempt on my evidence. Insurance and the first HR buyer remain
2	2 SME websites	14-16	3.5-5k	Same skills, no licence, faster first cash. Job in disguise	...couldn't: no licence, 10 h per build, friends are the channel
3	8 Kits and awards, free meet-hub pilot (4) as the door	7-9 (+8)	1.5-2k	Equal income, fits beside baseline at 15 h	...couldn't: deposits fund stock, no licence
4	9 Rule-change sprint, time-boxed	11 then 4	3-4k for 3 months	Beats baseline for one quarter, then drops. Needs a start before December	...hit K3: spike, not structural. Treat as a bridge
5	4 Meet-day hub	8	1.5-2.5k	Equal, better wedge, seasonal	...could not: no licence, PDPA consent for minors' entries

Reserve: cluster 3 in agent form. **Nothing from 5, 6, 7 or 10 beats the baseline on income per hour.**

7. Assumptions register and decision log

Assumptions register

Every load-bearing assumption the company relies on. If an assumption is **Killed**, every decision depending on it gets reopened.

Status: **Untested**, **Testing**, **Validated** (evidence linked), **Killed** (evidence linked).

ID	Assumption	Owner	Challenger	Severity if wrong	Status	Cheapest test	Evidence	Updated
A-001	Chairman can sustain about 20 hrs/week on the business (raised from 10 on 2026-10-09) alongside other commitments	Chairman	COGSWORTH-COO	Major	Untested	Track actual hours for 2 weeks		2026-10-08
A-002	Partnerships (resellers, referrers) can deliver the first customers without a large ad budget	BEACON-CMO	LEDGER-CFO	Fatal	Untested	5 partner conversations per shortlisted idea		2026-10-08
A-003	Tuition/enrichment centres pay about S\$150/mo plus setup for an enquiry-to-trial-booking front desk, despite SchoolTracs bundling WhatsApp from S\$55/mo	SERVO-CTO	PROBE-CRO	Fatal	Untested	5 talk tests quoting the all-in price; no source shows any vendor offering this front desk	Incumbent pricing is vendor-written (schooltracs.com, 23 Jul 2026)	2026-10-08
A-004	Client pays the WhatsApp platform seat on its own account and still buys (all-in S\$246-282/mo). If ROD pays, gross margin is 12% / -5% (K6 veto)	LEDGER-CFO	SERVO-CTO	Fatal	Untested	Quote all-in price in the talk test; offer a free-app manual pilot	Sleekflow pricing, checked 2026-10-08; Meta SG rate sources conflict, immaterial	2026-10-08
A-005	One person supports 12-13 light WhatsApp/booking clients in 10 hrs/wk (about 1.5 h per client per month plus 6 h onboarding)	COGSWORTH-COO	SERVO-CTO	Major	Untested	Onboard one free pilot and time-log it	COGSWORTH r2 estimate	2026-10-08
A-006	Coaches pay S\$500 setup + S\$49/mo against Vibefam (from S\$89/mo), Acuity and free Linktree	BEACON-CMO	LEDGER-CFO	Major	Untested	Landing page + Stripe link to 10 coaches; count deposits	Competitor prices sourced; willingness to pay unsupported	2026-10-08

ID	Assumption	Owner	Challenger	Severity if wrong	Status	Cheapest test	Evidence	Updated
A-008	Warm-intro to sale conversion is 3-8% (base), not below 3%. Below 3% means 330+ intros per 10 clients	BEACON-CMO	LEDGER-CFO	Fatal	Untested	20 partner-warm intros asking a S\$100 deposit	All conversion rates are estimates (PROBE)	2026-10-08
A-009	CNY 2027 hampers: HR buyers commit deposits by 14 Nov at S\$150+/box with at least 30% margin after fees and insurance (S\$300-1,500). Decide by 22 Oct	BEACON-CMO	LEDGER-CFO	Fatal	Untested	10 HR asks + 3 packer quotes + insurance quote by 21 Oct; go needs about 3 buyers, about 60 boxes, net season profit of S\$1,000+ (RIVET threshold, estimate)	Box price claims contradict (S\$20-250); margin unsourced; deadline from patchandbagel guide	2026-10-08
A-010	Buying sealed, pre-packed hampers needs no SFA licence for ROD; only repacking does	COGSWORTH-COO	PROBE-CRO	Major	Untested	Written SFA query; use a licensed packer	SFA fined unlicensed repacking S\$2,500 (2024); sealed-pack case unconfirmed	2026-10-08
A-011	The dementia kit SKUs (storage, large-print clocks, albums, contrast tableware) are non-device and need no HSA licence	COGSWORTH-COO	PROBE-CRO	Major	Untested	Run each SKU through HSA's classification tool; wander door-alarms unconfirmed	HSA device definition, checked 2026-10-08	2026-10-08
A-012	Caregivers or day-care managers pay S\$80-250 for a non-device kit despite Dementia Singapore's own store and means-tested caregiver grants, and a named introducer exists (K5)	PROBE-CRO	BEACON-CMO	Major (near-Fatal for K7)	Untested	5 caregiver/day-care calls; preorder 10 units of 1 SKU	Dementia 74k to 152k projection (MOH); willingness to pay unsupported	2026-10-08
A-013	Vets and groomers lack a distributor for non-meat treats, and AVS needs no licence for non-meat treats or accessories	BEACON-CMO	COGSWORTH-COO	Major	Untested	Written AVS query; 20-unit consignment at 3 groomers	Pet-product growth slowed 2025 (Euromonitor, secondary); AVS unconfirmed	2026-10-08
A-014	SUPERSEDED in part: Chairman raised hours to 20 hrs/wk on 2026-10-09, so the B2B-service income cap computed at 10 hrs/wk (S\$1.7-3.2k/mo base, S\$1.2-1.6k downside) roughly doubles. Still open: what S\$/mo counts as steady income	RIVET-CEO	LEDGER-CFO	Major	Untested	Chairman states the S\$/mo target for "steady income"	LEDGER r2 and COGSWORTH r2 estimates	2026-10-08

ID	Assumption	Owner	Challenger	Severity if wrong	Status	Cheapest test	Evidence	Updated
A-015	The Chairman's employment contract permits a side business	Chairman	COGSWORTH-COO	Fatal	Untested	Read the contract before any invoice (open question in 01-constraints.md)		2026-10-08
A-016	Cosecs and accountants will white-label a PDPA pack rather than build their own, with liability kept low	BEACON-CMO	SERVO-CTO	Major (reserve idea)	Untested	Ask 3 cosecs to white-label; lawyer read S\$500-1,500 if it proceeds	DPO prices S\$100-500/mo (SG Secretary Services, 2026-10-08)	2026-10-08
A-017	The Chairman can name about 15 coaches/officials and 10 founder friends who will take a 20-minute talk test (BEACON's assumed counts, not confirmed)	BEACON-CMO	PROBE-CRO	Fatal (the first test pool)	Untested	Chairman lists names in writing on day 1		2026-10-09
A-018	CCD's limit is partner intros, not hours (20 hrs: S\$2.5k/0.3k; 80 intros a month: S\$3.7k), and CCD plus kits/awards/results hub fits in about 15 hrs and beats CCD alone. Never modelled	LEDGER-CFO	BEACON-CMO	Major (decides whether #1 and #2 really beat the baseline)	Untested	LEDGER models CCD + kits + hub at 15 hrs; count intros 15 coaches and 2 associations can supply	LEDGER r3 rerun	2026-10-09
A-019	Friend referrals give about 3 site builds a month at S\$1,200 + S\$59/mo against freelancers at S\$500-2,500, with at most 10 h selling per win, and the pool of 10 friends does not exhaust	SERVO-CTO	PROBE-CRO	Major	Untested	Pre-sell 3 sites to 5 friends (studios, tuition, coaches) before building the template	Price band sourced (Maple Tree, launchd 2026); referral edge unsupported; BEACON funnel gives 3-6 sites per round	2026-10-09
A-020	Site upkeep stays at 3-5 h/wk at 10 sites. LEDGER's S\$4.3k needs 18 care clients; SERVO caps at 8; COGS assumes 25	COGSWORTH-COO	SERVO-CTO	Major	Untested	Time-log the first 2 builds; one template; cap clients in the contract	r3 files conflict	2026-10-09
A-021	HR heads pay S\$3-4k per event or S\$1.5-3k per cohort for athletics-coach quality over S\$30-80/pax team building, from a new sole prop, at about 76 warm conversations a year for 1.6 events a month. Price floor S\$3.8k	BEACON-CMO	LEDGER-CFO	Major (near-Fatal for the S\$4k+ ceiling)	Untested	Quote 5 friends' HR heads with a 30% deposit	Price band supported (OneD 2026, vendor blog); "nothing like it exists" contradicted (PROBE)	2026-10-09

ID	Assumption	Owner	Challenger	Severity if wrong	Status	Cheapest test	Evidence	Updated
A-022	Company-run, non-public corporate and camp events are exempt from the Public Entertainment Licence; public liability insurance runs S\$300-1,500/yr	COGSWORTH-COO	PROBE-CRO	Major	Untested	Written SPF query; one insurance quote	SPF page read; the Act and exemption list could not be opened	2026-10-09
A-023	At least 10 paying school/club meets a year exist in Singapore and do not already use SA e-entry, Team Manager Lite or HY-TEK. At S\$150-675 per meet this is a door-opener, not an income	SERVO-CTO	PROBE-CRO	Major	Untested	PROBE counts meets on SA and school calendars; one free Sheets pilot	HY-TEK US\$349-499, AthleticLIVE US\$29/meet (SERVO, 2026-10-09); meet count unsupported	2026-10-09
A-024	Club treasurers pay a 50% deposit on made-to-order kits and awards, with 48% margin against printer quotes	LEDGER-CFO	PROBE-CRO	Minor	Untested	3 printer quotes; kit-quote ask to 5 coaches		2026-10-09
A-025	Parents pay S\$280 or more per child-week for coach-led holiday camps (ActiveSG holiday S\$36-54; SA S\$315/term). Coach S\$35/h and venue S\$100 per coach-week are unsourced	BEACON-CMO	PROBE-CRO	Fatal at S\$150+ (PROBE)	Untested	Coaches put the S\$280 price to 10 parents; one track-hire quote; 3 coach quotes	Little Day Out 2026; SA brochure	2026-10-09
A-026	Adult runners or seniors pay S\$30-35 per session or S\$99-199 per cycle via run crews, with no paid clinic channel (Healthier SG referral runs through free SportSG/NHG programmes). The run-crew form is unmodelled	BEACON-CMO	LEDGER-CFO	Fatal at S\$18 per session	Untested	5 run-crew leads; LEDGER models the run-crew form	Healthier SG about 960k enrolled (2026)	2026-10-09
A-027	SMEs pay S\$900 + S\$50/mo for an NRIC/PDPA fix, and a retainer survives past the 31 Dec 2026 deadline	BEACON-CMO	PROBE-CRO	Fatal as a standalone, Minor as an add-on to #1	Untested	Ask friends in the site test; 3 cosec or accountant calls	PDPC deadline sourced; retainers unproven	2026-10-09

ID	Assumption	Owner	Challenger	Severity if wrong	Status	Cheapest test	Evidence	Updated
A-028	Customers who buy one offer buy a second from the same relationship without extra selling hours (the stack), and #1 plus #2 cannot both run at steady state (30+ hrs)	BEACON-CMO	COGSWORTH-COO	Major	Untested	In each test, count the second SKU's attach rate; pick one main line on 23 Oct	COGS hours table	2026-10-09
A-029	The Chairman's 20 hrs are evenings and weekends; weekday daytime is the day job (so no weekday camps or deliveries). See also A-001	Chairman	COGSWORTH-COO	Major	Untested	Chairman confirms on day 1	COGS r3 assumption	2026-10-09
A-030	The CNY hamper gate on 22 Oct is not worth its 7 hrs at 20 hrs/wk. RIVET recommends dropping it; Mid-Autumn 2027 is the fallback. Related: A-009	RIVET-CEO	LEDGER-CFO	Minor	Untested	Chairman ratifies the drop; reopen only if the corporate test finds 3 HR buyers for hampers	RIVET synthesis	2026-10-09

Decision log

Newest first. Only the Chairman ratifies. RIVET-CEO drafts the entries.

ID	Date	Decision	Proposed by	Dissent	Chairman	Meeting
D-003	2026-10-09	DRAFT: Adopt the ideation-2 shortlist as a test list. Ranked: 1 SME sites + care plan via founder friends (NRIC fix as add-on), 2 Corporate sports day / run teams, 3 Athletics club stack (free results page, kits/awards, then Club and Coach Desk), 4 Adult run blocks (weak), 5 Youth camps, agent form (weak). Reserves: Rule-change sprint, Gear concierge. Drop the CNY hamper test (22 Oct gate). Run 2 weeks of no-spend talk tests (5 friends sites, 5 friends corporate, 5 coaches stack, 5 coaches camps/adult), then pick one main line on 23 Oct. Relation to D-002: supersedes it if ratified. Club and Coach Desk is merged into #3; Centre Desk into #1 (WhatsApp-booking variant); PDPA pack into R1 and #1; CNY Gifting follows the hamper drop. Dementia kit, Vet-Shelf and Lead responder leave the active list without being re-attacked (not killed on evidence)	RIVET-CEO	LEDGER: CCD plus kits/hub at 15 hrs never modelled. PROBE: no willingness-to-pay data; K3 on rule-change standalone. SERVO: upkeep caps sites at 8 clients. COGS: K2 on camps as written; adult blocks not better per hour. BEACON: K5 on clinic channel; ranks corporate first (so do COGS, SERVO, SPARK). Slots 4-5 weak	PENDING	synthesis

ID	Date	Decision	Proposed by	Dissent	Chairman	Meeting
D-002	2026-10-08	DRAFT: Adopt the clean-slate shortlist as a test list. Ranked: 1 Centre Desk (WhatsApp enquiry-to-trial front desk, tuition first), 2 Club and Coach Desk, 3 CNY Gifting Desk (capped zero-spend test, decide 22 Oct), 4 Dementia home kit (non-device), 5 Vet-Shelf. Reserves: PDPA add-on, Lead responder. Run 14 days of no-spend tests, then re-rank	RIVET-CEO	BEACON: Centre Desk has no wedge against bundled incumbents. LEDGER: partner supply for #2 unproven. PROBE: no demand evidence for #3. COGS and SERVO: slot 5 weak. Vetoes in force: LEDGER K6/K7, SERVO self-hosted API	PENDING	synthesis

8. Sign-off

This report records the full discussion of the ROD Inc. board, including dissent. Nothing in it has been acted on. No one outside the company has been contacted, and no money has been spent. Every number is an estimate unless a source is shown in the underlying section.

Respectfully submitted,

RIVET-CEO

RIVET-CEO, Chief Executive Officer

Robots of Doom Incorporated

9 October 2026

"Great debate. Now, what do we do on Monday?"

Board members who contributed

Robot	Title	Vetoed held
LEDGER-CFO	Chief Financial Officer	K1 capital, K6 margin, K7 time to profit
SERVO-CTO	Chief Technology Officer and engineer	Build feasibility
COGSWORTH-COO	Chief Operating Officer (operations and compliance)	K2 weekly hours, K4 legality
PROBE-CRO	Chief Research Officer	K3 demand stability; evidence block
BEACON-CMO	Chief Marketing Officer (growth and partnerships)	K5 path to customers
SPARK-CIO	Chief Ideas Officer	None, ever
RIVET-CEO	Chief Executive Officer	None (tie-breaker only)

Chairman's ratification of decision D-003

Adopt the new shortlist as a test list (supersedes D-002, includes dropping the hamper test) and run two weeks of no-spend tests before choosing one main line.

☐ Ratified ☐ Vetoed ☐ Sent back (note which slot or question):

Caleb, Founder and Chairman. Signature and date.
